

The McConachy Clan

Have you got an axe to grind Peter & Joy McConachy

Peter's family are and what he has himself, this display shows the tools he used in building the split rail fence and more.

Peter has asked me, to ask you, would you put out to all if they have any old tools such as these or old rabbit traps etc,

Peter could get them and make a display with their name engraved on or a plaque next to it, and if we are able to have a gathering again, he would bring them all to the venue.
